

Nailing the basics: reading and maths fluency

Please remember, as with walking, talking, riding a bike etc not all children learn at the same speed. Some children also have additional barriers to overcome. We are working in school to support children where they need a little more.

What level should typically be at the end of each year group?

How can I help my child at home?

Children learn to read with practise: little and often. Please ensure your child is reading every day. Children also have their own Oxford Owl 'Bug Club' online reading library with books matched to your child's current reading ability.

With number bonds and times table fluency: Numbots and TTRS are great resources to support children's rapid recall of key maths facts.
